Investment in Innovations

Huge ownership of Key,
Innovative & CPM Machines
For Quality Roads in time.

High Margins

Speedy completion to
Focus on bonus & bottom
Line rather than top line.

Skilled Manpower

In House capabilities
To deliver Quality Roads.

Controlled Jobs

Careful selection
Of Projects.

Minimal Subcontracting

Low Dependency on
External agencies.

Backward Integration

Cost efficient & no dependency
For Raw Material.

OUR CORE VALUE

Human Power

At RIPL, we recognize the value of all the people associated with us and have a culture of shared responsibility and team work. While taking professionalism in work to the next level, our feet remain grounded to the fact that human resources are our assets and we provide them with ample opportunity in training and self-development.

Integrity and trust

With years of experience under our belt, we have gained a reputation of trust and integrity in our dealings by continuously delivering exactly what is promised.

Commitment

We are a committed unit towards delivering excellence in quality within specified time. Our “No default history” in not only loan repayment but also in road construction (quality standards & time) aptly justifies our commitment.

Our Experience

Road and building construction, – RIPL provides varied solutions. We have started out with road construction and entered under government schemes development in a big way. Quality and Integrity are the hallmarks of all the projects that we have ever touched. Our business excellence is reflected in our quality standards, construction and project management techniques. With time and pace, we have developed to become national level construction entrepreneurs.

Construction

A years of rich experience is pioneering and implementing the Projects for the government in its Buildings, Highways & Bridge projects. Our portfolio is to manage business development division with a passion for quality control.

Engineering

A well-placed management team with extensive understanding of all types of Contracts. Facilities of testing units, along with a technologically advanced laboratories & Innovative machineries from many corners of the world.

Finance & Marketing

Our rich experience in entire infra business operations and leading teams of Finance, Taxation, Legal, and has played a pivotal role in business development, strategy, system establishments, Business Process re-engineering & result oriented approach.

Safety & Maintenance

Safety Audit is a systemic evaluation process for highway construction, operation and maintenance safety, which introduces concepts of operation safety and reduction of traffic accident into the feasibility study and design of highway project.

Excellent and Trusted Service!

“Constructing the future on the strength of our past!”

We are one of the leading construction companies having expertise in construction of rigid and flexible pavements for roads/highways, including bridges, embankment with reinforced earth and earthwork. RIPL group is one of the large industrial group incorporated in 2018 and located at Mehsana. During years of its existence RIPL group have executed pavement works, both rigid and flexible, at Roads & Building Department, Gujarat and Other Private projects.

We employ skilled team and use the best tools and equipment to get project done in the most accurate and efficient way possible. Our workers regularly upgrade their skills by training on the latest technology and information available. Our machinery is maintained and serviced regularly to ensure consistent operations and reduce down time. We are committed to providing our customers with the best quality workmanship at all times. By ensuring high standards, we can achieve maximum value in each and every project regardless of its size.

DESIGN YOUR PROJECT WITH US

The Power of Construction Is Human Power

To undertake the engineering and construction business with a focus on becoming the leader in product costing while building excellence in every aspect to meet customers' stringent requirements regarding quality, on-time delivery, safety and environmental concerns.

To develop an effective management that stresses productivity, perpetual development of the organization, and instilling work ethics in all personnel.

To remain focused on controlled organizational growth and recognizing those who contribute to this growth.

To thrive for innovation in road construction by intense research & development thereby matching the industry benchmarks.

DEVELOP NEW PROCESSES QUICKLY INNOVATION WITH IN INDUSTRY FOR MARKET

We believe that knowledge and innovation is never enough. We believe in integrating the latest in construction and engineering technology to ensure that our projects are not compromised by disruptions or obsolescence. By incorporating professional discipline in operations and intense research & development in engineering, we are committed towards innovation.
